

Call Senator Pat Toomey

Reopen the Government

EVERY DAY THIS GOVERNMENT SHUTDOWN DRAGS ON, hundreds of thousands of working people are denied a paycheck and millions lose the vital government services they deserve. America's working families are looking to the president and Congress to end this debacle.

Many public workers average \$500 a week in take-home pay. Any financial uncertainty causes stress and anxiety. If the shutdown is not resolved and a back-pay bill approved soon, many public employees throughout the country will not be able to make ends meet.

Congress and the president must enact legislation to reopen the government now! Real families with real bills are being harmed, and it is time we hold our country's leadership accountable.

Call your legislators and demand that they vote to reopen the government!
